

I am in support of Strong Net Neutrality backed by Title II oversight of Internet Service Providers! I am strongly opposed to Docket No. 17-108 because I do not believe that my information or internet usage should be sold or used for any purposes other than my own. This act which calls itself "Restoring Internet Freedom" is malicious and makes me as an individual less free. My government should uphold my personal freedoms, not tear them down as this would do if it is enacted.
